

# Becoming Spacewalker: My Journey to the Stars

In 1996, I was selected to become a NASA astronaut. It was a dream come true, but it was also the beginning of a long and challenging journey. In Free Download to prepare for my first spaceflight, I had to undergo two

years of intensive training. I learned how to operate the Space Shuttle, how to conduct spacewalks, and how to live and work in space.

My first spaceflight was a 16-day mission to the International Space Station. During the mission, I conducted three spacewalks, totaling more than 19 hours. I also helped to install new equipment on the space station and to conduct scientific experiments.

I have since flown on four more spaceflights, including a six-month mission to the International Space Station. I have conducted a total of 10 spacewalks, totaling more than 61 hours. I have also helped to repair the Hubble Space Telescope and to install new modules on the International Space Station.

In my book, *Becoming Spacewalker*, I share my experiences as an astronaut. I describe the challenges of training for spaceflight, the excitement of launching into space, and the awe-inspiring beauty of our planet from orbit. I also share my thoughts on the future of space exploration and the importance of inspiring the next generation of scientists and engineers.

If you are interested in space exploration, then I encourage you to read my book. I hope that my story will inspire you to dream big and to pursue your own dreams.

## Reviews

"Becoming Spacewalker is a fascinating and inspiring account of one man's journey to the stars. Scott Kelly's writing is clear, concise, and engaging. He brings the reader along on his incredible journey, from his early days as an astronaut trainee to his historic year-long mission on the International Space Station. This book is a must-read for anyone interested in space exploration or the human spirit."

- Neil deGrasse Tyson, astrophysicist and author

"Scott Kelly's Becoming Spacewalker is an extraordinary memoir of a life lived on the edge. Kelly's vivid descriptions of his experiences as an astronaut will leave you breathless. This book is a testament to the human spirit and the power of dreams."

- Jim Lovell, astronaut and author
