In the annals of South African history, the apartheid era stands as a dark and complex chapter. During this time, young men were conscripted into the South African military to fight in a war that wielu viewed as unjust and unnecessary.

Voices of South African National Servicemen is a powerful and moving collection of stories that captures the experiences of these young men. These stories offer a unique and deeply personal perspective on one of the most turbulent periods in South African history.

The book is divided into three parts. The first part, "The Call-Up," tells the stories of how these young men were conscripted into the military. The second part, "The War," recounts their experiences in the war zone. The

third part, "The Aftermath," explores the long-term effects of the war on these men.

The stories in *Voices of South African National Servicemen* are told in the men's own words. They are raw, honest, and deeply moving. They tell of the horrors of war, the bonds of friendship, and the resilience of the human spirit.

One of the most striking things about these stories is the diversity of experiences. Some of the men were staunch supporters of the apartheid regime, while others were deeply opposed to it. Some saw the war as a noble cause, while others saw it as a waste of life. Despite their differences, these men all share a common bond: they were all conscripted into the military and forced to fight in a war that they did not choose.

*Voices of South African National Servicemen* is an important and timely book. It is a reminder of the horrors of war and the importance of peace. It is also a tribute to the courage and resilience of the South African National Servicemen who fought in the apartheid era.
